key points.

- Your portfolio companies can integrate directly with our APIs to embed our payment processing into their software solution.
- Once embedded, we can process payments at lower pricing than popular competitors such as Stripe.
- Unlike other processors, MiCamp can build customizable integrations that solve for a company's specific payment needs.
- MiCamp can be a fundraising source to invest in companies to help fuel their growth.
- MiCamp can offer a **PE FIRM** a 25% monthly revenue share from the payment processing generated.
- A 25% revenue share also enables a **PE FIRM** to participate in MiCamp's 3-4 exit strategy, providing for a bonus based on your share of the revenues generated from the payment processing at the exit.
- **PE FIRM** also benefits from offering their partner companies a streamlined payment processing solution that can lower their payment processing costs.
